WORK EXPERIENCE

Magicallysoft

2024 DECEMBER–PRESENT

Project Manager

2025 April – Present

Experienced Project Manager skilled in client communication, team coordination, and delivering successful web projects aligned with business goals.

- Managed multiple projects end-to-end, including requirement analysis, task assignment, and ensuring timely, budget-friendly delivery that met client expectations.
- Led cross-functional teams, maintained clear communication with clients, and ensured smooth collaboration to drive project success.

Senior Software Developer

2024 December – 2025 March

Contributed to the development of an e-commerce website, handling both user and admin interfaces on the frontend. Rebuilt the MagicallySofy website with enhanced design and functionality for improved user experience.

- Developed the frontend for an e-commerce platform (user and admin interfaces) using React, Redux, and Bootstrap.
- Rebuilt the MagicallySofy website with improved UI/UX and performance enhancements using HTML/CSS and Bootstrap.

WebAshlar

2024 FEBRUARY–2024 DECEMBER

Software Developer

at WebAshlar, where I transitioned from intern to Software Developer, building a strong foundation in backend development and teamwork.

- Focused on backend development using Python and Node.js, contributing to functional modules in live web applications.
- Improved collaboration and communication skills through close teamwork and participation in real-world development cycles.

Freelancing

2023 NOVEMBER–2024 FEBRUARY

- Worked as a freelance web developer, primarily focusing on frontend development and deployment for local clients.
 - Designed and developed responsive web pages and email templates tailored to client needs using modern frontend technologies.
 - Handled end-to-end deployment of websites, ensuring smooth launches and ongoing support for local businesses.
